

# Spread Your Wings

## Black Label Society

Destroy this world  
And all it is  
This rain that falls  
Just kill it dead Bring your pain and  
Bring all your hate  
Lord, I'll kill it all again Oh yeah  
Spread your wings now child  
Never return  
Hell before heaven  
'Fore we all get burned  
This poison that bleeds our souls  
Drown in yourself  
Can't you see what's going on? Bring your pain and  
Bring all your hate  
Lord, I'll kill it all again Oh yeah  
Spread your wings now child  
Never return  
Hell before heaven  
'Fore we all get burned-Solo-  
Spread your wings now child  
Never return  
Hell before heaven  
'Fore we all get burned  
Spread your wings now child  
Never return  
Hell before heaven  
'Fore we all get burned
