

# Breathe Me In

Laura Welsh

Slow conversations keep drawing me in  
I lose concentration  
Don't know where I've been  
Figure it out  
I figured you out And you take control  
While I start making sense  
Claim it was over  
And you lost in the sense  
So I wanna get out  
I can't get out So will you let me know?  
How this became obsession?  
Will you let me go  
After our confession?  
Cause I know that we'll show the sides this time  
Within the lights let's begin  
Cause now the air it's getting thin  
Baby just breathe me in  
Can't you just breathe me in? I felt so stupid  
While you shut your eyes  
Taking the believe to faith an disguise  
You're coming around  
You're coming around So will you let me know?  
How this became obsession?  
Will you let me go  
After our confession?  
Cause I know that we'll show the sides this time Within the lights let's begin  
Cause now the air it's getting thin  
Baby just breathe me in  
Can't you just breathe me in?  
Within the lights let's begin  
Cause now the air it's getting thin  
Baby just breathe me in  
Can't you just breathe me in?
