

My Superman

Santigold

Hey, hey, hey
Hey, hey, hey Well, you're a liar and your cues are all wrong
But I can't count all the ways you woo me
I watch you capture what I can't hold
Now make make it make some sense to me You are, you are my, you are my
You are my Superman Hey, hey
You got to live, you got to live
You got to live Make it fly, bless your soul
You get by, take me along
But all the static here, it's tearing you apart
You can't help the way you, you, you, you You are, you are my, you are my
You are my Superman
Hey you, hey, hey
You, you, you can't wait
Walk, walk, walk on now
Hey
You are, you are my, you are my
You are my Superman
Hey, hey
You got to live, you got to live
You got to live
