

# Oxygen

Jesse McCartney

Baby, you're a star  
I'm rollin' out the red carpet for you on the floor (on the floor)  
'Cause anything and everything I'm gonna give you when you come to my door  
And I make you the air I'm taking without you I'm suffocating I can't let you go  
'Cause everything else I don't need around me I been hooked since you found me  
Baby, look how I'm diving below Girl you are my (oxygen)  
Girl you are my (oxygen)  
Girl you are my (oxygen)  
Ehh  
Girl you are my (oxygen)  
Girl you are my (oxygen)  
Girl you are my (oxygen)  
Yeah  
Girl you are my oxygen  
Yeah  
Without you don't think I could live  
No  
'Cause baby on you I depend  
Yeah  
Girl you are my oxygen  
Whoa  
What good are money and clothes and million dollar homes if I ain't got you around  
'Cause see the thought of you gone leavin' me here all alone the tears start rollin' down  
Wanna kiss your finger tips and your lips baby it's somethin' I can't live without  
'Cause everyone else around don't mean a thing I got everything I need baby in your love I'm  
swimmin' now Girl you are my (oxygen)  
Girl you are my (oxygen)  
Girl you are my (oxygen)  
Ehh  
Girl you are my (oxygen)  
Girl you are my (oxygen)  
Girl you are my (oxygen)  
Yeah  
Girl you are my oxygen  
Yeah  
Without you don't think I could live  
No  
'Cause baby on you I depend  
Yeah  
Girl you are my oxygen  
Whoa  
One second without you, you know that I die for sure

I'm dependent on you I can't do this on my own  
Everything else I can do without I hope you know  
You are my oxygen without you I couldn't live Ooh-oh
