

# Wide Awake

Joel Vaughn

Can't fix a bullet with a bandaid  
You can try to hide it but your heart's still bleeding out  
Now your voice is screaming on the inside  
But the Universe doesn't hear a sound  
When everything comes crashing we come alive I can see, I'm wide awake  
There's a fire in my heart I can't put out  
Now it's breaking through the day  
Your love invades me inside out  
Nothing else could separate  
(and when my heart stops)  
I don't have to fear my world is crashing down  
I know your love will stay the same  
No height or depth could bring me down  
Don't you know the truth about who you are  
You don't have to buy the lies that keep you breaking down  
You were never meant to be a savior  
Let it set you free as your walls come down  
When everything comes crashing we come alive  
I can see, I'm wide awake  
There's a fire in my heart I can't put out  
Now it's breaking through the day  
Your love invades me inside out  
Nothing else could separate  
(and when my heart stops)  
I don't have to fear my world is crashing down  
I know your love will stay the same  
No height or depth could bring me down  
We can't stop the night, hold on to the light  
We can't stop the night, hold on to the light, hold on to the light  
We can't stop the night, hold on to the light  
We can't stop the night, hold on to the light, hold on to the light  
I can see, I'm wide awake  
There's a fire in my heart I can't put out  
Now it's breaking through the day  
Your love invades me inside out  
Nothing else could separate  
(and when my heart stops)  
I don't have to fear my world is crashing down  
I know your love will stay the same  
No height or depth could bring me down
