

Let It Out

Switchfoot

Keep keep keep keep pushing this higher (oh oh)
After living uptight
take it easy right now
Like a moth to the fire (oh oh)
Like I'm losing this fight
take it easy right now From the day we're born
We are scarred and torn
We've been scared to sing out loud
But we don't care no more
'Cause we know life is short
And we don't care who hears us now
Breathe it in and (let it out)
Let it out (oh oh)
Let it out (oh oh)
Breathe it in and let it out (oh oh)
Let it out (oh oh) We're walking on a wire (oh oh)
Got me shaking at night
take it easy right now
When my soul gets tired (oh oh)
Feel like I'm losing that fight
take it easy right now From the day we're born
We are scarred and torn
We've been scared to sing out loud
But we don't care no more
'Cause we know life is short
And we don't care who hears us now
Breathe it in and (let it out)
Let it out (oh oh)
Let it out (oh oh)
Breathe it in and let it out (oh oh)
Let it out (oh oh)
Yea, come on let it out Are you holding on
Are you leaning on those ropes
'Cause I know how it feels to lose hope
Are you holding on
Well come on, let it out
(Take it easy)
Take a breath and let it out
(Take a breath and let it out) From the day we're born
We are scarred and torn
We've been scared to sing out loud
But we don't care no more

'Cause we know life is short
And we don't care who hears us now
Breathe it in and let it out
Let it out (oh oh)
Let it out (oh oh)
Yea, come on let it out
Let it out (oh oh)
Let it out (oh oh)
Breathe it in and let it out
