

M-1

Trick Trick

this is some fucked up shit man
I am fighting for my motherfucking life
setting here all time over some dumb shit
these bitches are about to kill me
they ain't playen
i ain't talking about some niggas neather
i am talking the motherfucking people
fuck it let go

What would be the reason for me to jump out the whip
then run up on a motherfuck with a 59 round clip
then take him in the back of his head 4 to 5 times
his brain matter was scattered
pasted out of him main
his sister got on the stand
told a mouthfull of lies
then stedy pointing her finger
but look me in my eyes
not once this bitch even knowlege the real
I was at my truck on the couner
when her brother was killed
no where near the sean for the muder concern
but they are after me

I see with a worent to serve a conviction is never the ishouw
they got her some tishow
she is asking for money
her nose snot and runy
this acting over hood rat
is placing them with lies
system disterce aterny
charcing with facing life
I am turn myself in for no reason to run
I didnt muder a damn thing
so fuck your M-1
you cant get me
you try to convit me
but you cant stick me
with a M-1
processaction against me
cop clip me
juges against me
I am the wrong one
you cant get me

you try to convict me
but you can't stick me
with a M-1
prosecution against me
cop clip me
judges against me
I am the wrong one
this got to be the most sickening
setback fighting this murder case
you got to be strong and patient
look at the time I'm facing
