

# Into the Sky

PNAU

I started walking, walking on the wrong side  
I saw x-ray visions in the highlight  
I started walking, walking on the wrong side  
I saw x-ray visions in the highlight Inner peace, chase away the face of evil  
Set us free, wrapped around this chain of heathens  
All we need is to give in to this feeling  
Come with me, out the rain into the seasons I started walking, walking on the wrong side  
I saw x-ray visions in the highlight  
I started walking, walking on the wrong side  
I saw x-ray visions in the highlight  
Gone into the sky  
Gone into the sky  
Gone into the sky  
Gone into the sky
