

# Runaway

## Lil Peep

[Intro]

Runaway from here  
Everybody so fake  
Everybody so fake, I swear  
I don't wanna go back there [Chorus]  
Take me, away from here  
Everybody so fake  
Everybody so fake, I swear  
But I don't wanna go back there  
Everybody so fake  
Everybody act like they care  
Take me, away from here  
Everybody so fake  
Everybody so fake, I swear  
But I don't wanna go back there  
Everybody so fake  
Everybody act like they care  
Everybody act like they care  
Why the fuck do everybody act like they care?  
I was dying and nobody was there  
Please don't cry, baby, life ain't fair

[Refrain]

I run away from my problems  
I do the drugs when I want 'em  
I ran away from my momma  
Don't bother me with no drama

[Bridge]

Now I'm looking for a ghost girl  
I ain't never gonna find her  
Pain pills with my coke, girl  
You know I gotta get high first  
Now I'm looking for a ghost girl  
I ain't never gonna find her  
You were everything I know, girl  
Ain't it funny how life work?

[Chorus]

Take me, away from here  
Everybody so fake  
Everybody so fake, I swear  
But I don't wanna go back there  
Everybody so fake  
Everybody act like they care

Take me, away from here  
Everybody so fake  
Everybody so fake, I swear  
But I don't wanna go back there  
Everybody so fake  
Everybody act like they care  
Everybody act like they care  
Why the fuck do everybody act like they care?  
I was dying and nobody was there  
Please don't cry, baby, life ain't fair  
[Refrain]  
I run away from my problems  
I do the drugs when I wanna  
I ran away from my momma  
Don't bother me with no drama
