

The Moon Is Full

Albert Collins, Robert Cray & Johnny Copeland

I said the moon is full, I feel my love comin' down
I said the moon is full, I feel my love comin' down
 You see I met this little girl
I don't think I'm gonna wanna, wanna, leave this town
All my friends call me crazy, you just
 don't know how I feel inside
 All my friends call me crazy, you just don't know how I feel inside
 You know I love this little girl
'Cause she's got the little pretty, pretty brown eyes
Gonna take that train in the mornin', I think
 I'm gonna go back home
Gonna catch that train in the mornin' y'all, I think I'm gonna go back home
 And I know that my little girl know
 Oh that I won't be gone, I won't be gone 'till dawn
 If I miss that train, I think I'm gonna to have to hitch-hike
If I miss that train in the mornin' y'all, I guess I'm gonna have to hitch-hike
 And I'll let my little girl know, I'll just be gone, I'll be gone overnight
