

The Greatest View (feat. Isabella Manfredi)

Flume

The coldest peak
I feel it now
I'm lookin' down
Your face to me
And I see red
In melody
Come and back me up, oh what's that baby? All my love
Feel it close
It's close enough
The greatest view
The greatest view
Is you babe
'Cause I've been there before Yes I'll be fine, you know I'll be fine (repeat)
All that see
As I find peace
It's easy prey
And my back
Feel it close
It's close enough 'Cause I've been there before
When all my love
Fills out my eyes
Stay close to me
The greatest view
Straight to my chest
Is you baby
'Cause I've been there before
Yes I'll be fine, you know I'll be fine (repeat)
'Cause I've been there before
Yes I'll be fine, you know I'll be fine 'Cause I've been there before
Yes I'll be fine, you know I'll be fine (repeat)
