

Where Love Lies Bleeding

Satellites

This is where you and I end dragged it out as far as I can
This is where you and I end I will not come back here again Pick up the pieces one by one
Stick them back together again
Put on my Sunday best to cover the cracks
Where love lies bleeding Split the atom one by one boxing gloves blindfold on
Earthquake flood hurricane eternal winter acid rain
Take me with you any which one I don't want to be left here alone
Cause this is where you and I end
This is where you and I end So pick up the pieces one by one
Stick them back together again
Put on my Sunday best to cover the cracks
Where love lies bleeding
Love lies bleeding on the floor
I step over I can't care for it no more
Love lies bleeding on the floor right here
Cause this is where you and I end
