

# The Innocents

## Low

all you innocents make a run for it  
all you innocents might be done for it  
all you innocents make a run for it  
all you innocents might be done for it

...

to begin with there's the two of us neverminding the world  
with the honor of a few of us  
melting everything to hope  
all you innocents make a run for it  
all you innocents might be done for it  
all you innocents make a run for it  
all you innocents might be done for it

...

all you innocents make a run for it  
all the innocents might be done for it  
all you innocents better run for it  
all the innocents might be done for it  
ahhhhhh ×2
