## Daft Punk

Hey Bob I'm looking at what Jack was talking about and  
it's definitely not a particle that's nearby.  
It is a bright object and it's obviously rotating because it's flashing  
it's way out in the distance  
certainly rotating in a very rhythmic fashion because the flashes come around almost on time.  
As we look back at the earth it's up at about 11 o'clock  
about maybe ten or twelve diameters.  
I don't know whether that does you any good, but there's something out there.
