

# All Over Me

## Drowning Pool

Something I just might regret  
Something you will not forget  
Maybe I should throw away  
Everything I've learned today All over me, all over me  
All over me, all over me  
All over me, all over me  
All over me, all over me Pushing forward from the truth  
Maybe it's me and maybe it's you  
Sometimes I don't know myself  
Twenty-eight years straight to hell All over me, all over me  
All over me, all over me  
All over me, all over me  
All over me, all over me  
There's something changing in me  
There's something growing in me  
There's something changing in me  
There's something growing inside of me  
(Changing, growing, changing, growing, changing) Go away  
Don't want this  
Don't want this  
Don't want this Don't want this  
Don't want this  
Don't want this  
Don't want this All over me, all over me  
All over me, all over me  
All over me, all over me  
All over me, all over me  
There's something changing in me  
There's something growing in me  
There's something changing in me  
There's something growing All over me, all over me  
All over me, all over me  
All over me, all over me  
All over me, all over me
