

Antidepressant

Lloyd Cole

I? m serving 12 to 15, working the coffee machine
I? ve got a license to fly underneath the radar
She? s about 50 feet north, 'As Seen On TV' store
I know she? s gonna tune me in sooner or later
With my medication, I will be fine
With my medication, I will be fine
With my medication, I will be, I will be fine
I said,? I? m trying to write my novel?
She said,? Neither am I?
And either way I saw you reading 'No Depression'
You? re doing nothing, I? ll come over
We? ll watch '6 Feet Under'
And then we? ll maybe get around to your condition
With my medication, I will be fine
With my medication, I will be fine
With my medication, I will be, I will be fine
First she? s gonna tire of my fixations
Then she? s gonna tire of my face
I? m gonna need a new affectation
I? m gonna need a new one everyday, everyday
With my medication I will be fine
With my medication, I will be fine
With my medication, I will be, I will be fine
