

Running Low

Shawn Mendes

Weeks on and I'm on the road
Start to lose my sense of home
I should've called so many times

But I

I just sat next to my phone
Just know it takes it from me
To end this, darling

Oh

And I know you'll find

Someone who

Gives you the time

I didn't give to you

I'm running low

I'm sorry but I have to go

Woah

It may be I will never feel
You gave me something so real

I'm running low

I'm sorry but I have to go

Woah Woah

Woah Woah

Thinking back to every night
We just layed there for a while
And when I looked into your eyes

Woah

I never thought

I'd take it back

Just know it takes it from me

To end this, Darling

Ohh

And I know you'll find

Someone who

Gives you the time

I didn't give to you

I'm running low

I'm sorry but I have to go

Woah

It may be I will never feel
You gave me something so real

I'm running low

I'm sorry but I have to go

Just needed time to

Find my own
But I promise someone
Will give you all you want
And give you all you need
And you just got to see
I never meant to hurt you
No
Woah
I know you'll find
Someone who
Gives you the time
I didn't give to you
I'm running low
I'm sorry but I have to go
Woah
And maybe I will never feel
You gave me something so real
I'm sorry but I have to go
