

Firebirds

Clutch

Outside of Needles I nearly lost my mind
I pulled over on the shoulder
Yeah, and I was there some time
A young thing came walking From out behind the trees
She gave me consolations And this is what she said to me "Firebirds! Energy weapons! Both of
these things are interesting to me I don't care how you get them I need them both and I need
them urgently" Yeah, I said I can get with that Oh,
I like those things too But I don't own a Firebird
Perhaps this Datsun will do Outside of the valley
Yeah, we got to overheating She took off her sunglasses
And said I believe this bears repeating
Outside of Barstow We got to living on the lam
Sometimes doing odd jobs And sometimes living off the land
Yeah, things went sour And the girl, she got to packing
When I asked her why She said "There are two things you are lacking"
