

Jah Werx

SUSTO

Jah Werx
& I'm fine today
At the same damn time, at the same damn time, at the same damn time
Jah Werx
& I'm fine today
At the same damn time, at the same damn time, at the same damn time When night and the fire
comes
I'll be holding you down now
Holding you down down slow
And I know, when the fire stops
You'll be holding me down now holding me down I know
Jah Werx
& I'm fine today
At the same damn time, at the same damn time, at the same damn time
Jah Werx
& I'm fine today
At the same damn time, at the same damn time at the same damn time Lifetimes in a carbon
place
It's the breath in my lungs
And the taste on my tongue I feel
Always put it back in the ground
Because it's going away yeah
It's going away I see
Jah Werx
& I'm fine today
At the same damn time, at the same damn time, at the same damn time
Jah Werx
& I'm fine today
At the same damn time, at the same damn time, at the same damn time
