## The Black Dahlia Murder

terror be thy name  
burning thine bridge and (heart) the same  
a year to drain my innocence  
and course it through your blackened veinsoh demoness, what has our daughter become?  
trash for the maggots to eat  
what color eyes should be staring at me in my dreams?abomination, born in this union of hate  
killed in the name of the free!and of our son,  
to the sickle he clung  
a featureless face for your nightmarish dreams!dilate and extract  
dilate and bury it all  
mother, vampiric mistress of nightfed blood  
who pets her child's head from a grave  
demon, enchantress of evil profound  
DEAD AND NAMELESS  
(a noose to choke the memories from me)addic-ted to those forbidden hands  
thrust deep inside her helpless hullSCRAPE! scrape it all away  
vacuum these pictures from my brain  
scrape it all awayhow I shall laugh once you have died  
how I will sleep once you've been destroyeddilate and extract  
dilate and bury it deadmother, vampiric mistress of nightfed blood  
who pets her child's head from a grave  
demon, enchantress of evil profound  
DEAD AND NAMELESS  
(a noose to choke the memories from me)DEAD!
