

Ramona

Guster

Ramona where have you been?
I couldn't go to sleep 'til you came in
Ramona you're Miss Oklahoma and you
Miss Oklahoma
I'll get you what you want Cause there were days when a refrain
Would brighten our corner of Hickory Lane
When you would sing that song for me
Just like your favorite singer
Why'd you have to be so nice?
A wink and a girlie smile
And why'd you have to punch my eye?
That was something
But did you want me to stay? When I was younger and thought of myself
I never dreamed I'd become like this
A snap of your fingers an end to the arguments
Anything for you, love
Cause there were days when a refrain
Would brighten our corner of Hickory Lane
When you would sing that song for me
The only one you know
But I know now, not at the start
We're going to pieces we're falling apart
So come and sing that song for me
Just like your favorite singer?
