## Arctic Moon

Arctic Moon ft. Shuba - Cool In My Disaster lyrics  
All around the world there's people  
looking for a story  
Whispering through day and night they make things harder for me  
I hold onto all my haunted memories for no reason  
Looking for a way out till you helped me fight my demons 'Cause you are the cool in my disaster  
And I can't let you go  
I try to run to you faster  
With you I'm not alone  
You've been gone way too long, it's getting cold  
How do I know if you'll be back?  
These walls are twisting and burning down  
They all keep screaming out your name  
Where did you go, my world is caving in  
I'm holding on and following the winds  
'Cause you are the cool in my disaster [2x]  
[2x]'Cause you are the cool in my disaster [4x] The cool in my disaster  
You are, you are
