Chris Brown

Hol' up
Baby, what you want to do tonight
What you got for me to try? Baby, what you want to do tonight?
What you got for me to try?
OG Parker Should I hit the town? (Ayy)
Pull up at the strip (Skrrt, skrrt, ayy)
Fuck up a check, yeah
Show 'em how I live, yeah
Link on my neck (Link on my neck)
I got 'em on deck (I got 'em on deck)
But they didn't know you already at the crib
'Cause you nasty, babe
You do everythin' I like
But you classy, babe
And your spirit, just my type
Oh, you nasty, babe
You do everythin' I like
Yeah, you nasty, babe
You nasty, baby Frequency, you freaky when we in the bed
Yoga, fit pilate body, shawty, yeah
I can spot your curves with no infrared
Level to me, baby, open my third eye
That's my baby, she woke
She my little chico
When I'm with her, we go
I found my light
And the way that she go
Now wherever I go
I look around and the colors so bright
Green, rolled up in leaves
Yellow mood, ring
Purple like, like a beam
I dream in indigo
Baby, what you wanna do tonight? (Ayy, yeah, uh)
What you got for me to try? (Baby, ah)
We ain't let this shit fuck up our vibe, no
Pussy fire, it's a vibe, times ten 'Cause you nasty, babe
You do everythin' I like
But you classy, babe
And your spirit, just my type
Oh, you nasty, babe
You do everythin' I like

Yeah, you nasty, babe
You nasty, baby
Frequency, you freaky when we in the bed
Yoga, fit pilate body, shawty, yeah
I can spot your curves with no infrared
Level to me, baby, open my third eye
That's my baby, she woke
She my little chico
When I'm with her, we go
I found my light
And the way that she go
Now wherever I go
I look around and the colors so bright
Green, rolled up in leaves
Yellow mood, ring
Purple like, like a beam
I dream in... (Ow!) I still believe that we don't die (No, we don't)
So many questions, don't know why-y-y
I think I know you in my other life
When I'm with you, I feel alive
(Baby girl, you open) Open my third eye (Ayy)
That's my baby, she woke (Ooh)
And she my little chico (Whoa)
When I'm with her, we go (We go)
I found my light
And the way that she go (Ooh, yeah)
Now wherever I go (Ooh)
I look around and the colors so bright
Green, rolled up in leaves (Oh-whoa)
Yellow mood ring (Ooh, no no)
Purple like, like a beam (See what that purple like)
I dream in indigo
Baby, what you want to do tonight?
What you got for me to try?
Baby, what you want to do tonight?
What you got for me to try?
