

# Mr Disco

## New Order

How can I ever forget you  
You don't know just what I've been through  
The holiday we spent together  
Lives with me now and forever  
I tried but I can't find you  
Tell me now, what do I do?  
I tried but I can't find you  
Tell me now, what do I do? I can't find my peace of mind  
Because I need you with me all of the time  
I used to think about you night and day  
I used to feel what language cannot say  
Oh I can't find you  
No I can't find my peace of mind without you.  
Maybe you'd write me a letter  
And tell me why I never met you  
Our rendezvous just ended in sorrow  
Without you there's no tomorrow. I tried but I can't find you  
Tell me now, what do I do?  
I tried but I can't find you  
Tell me now, what do I do? I can't find my peace of mind  
Because I need you with me all of the time  
I used to think about you night and day  
I didn't care what other people would say  
Oh I can't find you  
No I can't find my peace of mind without you.  
I can't find my peace of mind  
Because I need you with me all of the time  
I used to think about you night and day  
I used to feel what language cannot say  
Oh I can't find you  
No I can't find my peace of mind without you. Ibiza, Majorca, and Benidorm too  
I searched all these places but never found you
