

Waiting for the Sun (feat. Ashley Marie)

Approaching Nirvana

If you believe in love
Then we can make it better
And I will stay with you
And we will live forever We're waiting for the sun
To fill us with her light
We're waiting for the sun
To bring us back to life If I could have your love
Then we could make it better
And you would come in close
We will live forever
We're waiting for the sun
To fill us with her light
We're waiting for the sun
To bring us back to life
