

# Straight

## Veruca Salt

You sleep better when you're  
you eat better when you're  
you sing better when you're  
you need me more when your straight  
Is this the weekend  
is that your girlfriend  
she's green and innocent  
you smoke her like she's incense  
you smile  
stay straight for me  
I'll wait till summers over  
I'll love you through October  
I'll give you everything  
I'll trade you anything for her  
stay straight for me
