

Thin Air (feat. Jordan Fisher)

Olivia Holt

People keep stopping me
People they noticed that something is different
Everything's different bout me
I was just minding my business
When I saw the light, something was different
Everything's different this time Don't stop
Taking all of my time
Make it all yours
Just keep on,
'Cause my heart likes the rush
So, please give me more
More more more
Boy, this is crazy 'cause it came out of thin air
It must be magic what you doing, it ain't fair
Oh ooh oh ooh ooh oh oh
You got that perfect timing and baby I swear
Our chemistry is gon' make the whole world stare
Oh ooh oh ooh oh oh Boy, you came out of thin air, thin air, thin air
Like you've always been there, been there, been there
Before it you didn't care, didn't care, didn't care
Came out of thin air, came out of thin air I want go with your love
I won't have to give you up
Pull me in closer,
Not scared to admit I want your touch
Your voice is a symphony, singing sweet melodies
Pull me in closer
'Cause when I rolled over, you got me
Don't stop
Taking all of my time
Make it all yours
Just keep on,
'Cause my heart likes the rush
So, please give me more
More more more Boy, this is crazy 'cause it came out of thin air
It must be magic what you doing, it ain't fair
Oh ooh oh ooh ooh oh oh
You got that perfect timing and baby I swear
Our chemistry is gon' make the whole world stare
Oh ooh oh ooh oh oh Boy, you came out of thin air, thin air, thin air
Like you've always been there, been there, been there
Before it you didn't care, didn't care, didn't care
Came out of thin air, came out of thin air

Like you checking on me
Yeah, I've been watching, too
It's like you're just a diva, but baby
That's because of you
You never knew I felt this true
But now we're here, with nowhere left to hide
The way you're looking at me, it's the way I look at you
Don't need space in between, just cut the tension like glue
Will soon?? like thin air to check the view
Boy, this is crazy 'cause it came out of thin air
It must be magic what you doing, it ain't fair
Oh ooh oh ooh ooh oh oh
You got that perfect timing and baby I swear
Our chemistry is gon' make the whole world stare
Oh ooh oh ooh oh oh
Boy, you came out of thin air, thin air, thin air
Like you've always been there, been there, been there
Before it you didn't care, didn't care, didn't care
Came out of thin air, came out of thin air
