

So Here We Are

Bloc Party

I caught a glimpse
But it's been forgotten So here we are again

I made a vow
To carry you home
Home I really tried
To do what you wanted
It all went wrong again

I made a vow
To carry you home
If you fall sick
If you pass out
Out I figured it out

I figured it out

I figured it out

I figured it out

I can see again

I can see again

I can see again

I can see again

I can see again
