Flying High

Jem

You can't know, oh no You can't know How much I think about you, no It's making my head spinLooking at you And you are looking at me And we both know what we want Hmm, so close to giving inFeel so nice Oh yeah, you feel so nice Wish I could spend the night But I can't pay the price, oh no, noBut I'm flying so high High off the ground When you're around And I can feel you're high Rocking me inside It's too much to hideI know, oh yes I know that we can't Be together But, I just like to dreamIt's so strange The way our paths have crossed How we were brought together Hmm, it's written in the stars it seemsFeel so nice Oh yeah, you feel so nice I'd love to spend the night But I can't pay the price, oh no, noAnd I'm flying so high High off the ground When you're around And I can feel you're high Touching me inside And it's too much to hideBack to earth Where did you take me to I know there's no such thingAs painless love Well it'll catch us up And we can never winBut ohh, I feel so alive Ohh, just wanna hold you Hold you so tightAnd I'm flying so high High off the ground When you're aroundAnd I can feel you're high Touching me inside And it's too much to hideAnd I'm flying so high High off the ground When you're around
