

From Loving You

Mandy Moore

(I had you, I had everything I ever needed) From that first look I knew
I found heaven in your eyes
But who was to know, the way it would go
I have no regrets
Now that I let you in
Wouldn't have missed one single moment
I would do it all over again 'Cause I was loved
I was touched
And I learned what love is, I learned what love is
I was blessed
So blessed
'Cause I learned what love is, I learned what love is
From loving you
(I held you, I held everything I ever dreamed of) With that first kiss from you
All this world seemed all so right
But who was to see the way it would be
I'll never forget
All the heaven we shared
And I thank God for every moment
Every moment that I had you there I was loved
I was touched
And I learned what love is, and I learned what love is
I was blessed
So blessed
'Cause I learned what love is, I learned what love is
From loving you
(Some people search their whole lives
Never find what I found in your eyes)
Glad I got to get the chance to
Have you in my life
I won't be sad when I look back
'Cause I was... I was... I was loved
I was touched
And I learned what love is, and I learned what love is
I was blessed
So blessed
'Cause I learned what love is, I learned what love is
From loving you
I learned what love is
From loving you
