

# Now You Tell Me

Jordin Sparks

Is there anything that can make you happy?  
I don't know what to say to make it better  
Seeing you like this, down and hurt so badly, when you have  
been so kept together  
What's this  
All this time I thought you didn't need me  
Now I've gone from you and now you tell me You're in love but that was not what it was  
All those times that pass by  
With no signs and now you're telling me  
You miss me boy why couldn't I see and my heart don't  
agree with what you're telling me  
You were nonchalant, strong and unaffected, and you never  
wanted me to be there  
I never saw your heart, that's how close you kept it  
So right now I'm so unsure how to care  
What's this  
All this time I thought you didn't need me  
Now I've gone from you and now you tell me You're in love but that was not what it was  
All those times that pass by  
With no signs and now you're telling me  
You miss me boy I couldn't I see and my heart don't  
agree with what you tell me  
You were nonchalant, strong and unaffected and you never  
wanted me to be there  
I never saw your heart that's how close you kept it  
So right now I'm so unsure how to care  
what's this?  
You're in love but that was not what it was  
All those times that pass by  
With no signs and now you're telling me  
You miss me boy why couldn't I see and my heart don't  
agree with what you tell me You're in love but that was not what it was  
All those times that pass by  
With no signs and now you're telling me  
You miss me boy why couldn't I see and my heart don't  
agree with what you tell me No attention was given  
no affection from you to heal the hurt  
I was hoping  
I was wishing just to listen and to hear those words. You're in love but that was not what it was  
All those times that pass by  
With no signs and now you're telling me  
You miss me boy why couldn't I see and my heart don't

agree with what you tell me You're in love but that was not what it was  
All those times that pass by  
With no signs and now you're telling me  
You miss me boy why couldn't I see and my heart don't  
agree with what you tell me
