

Smile (feat. Fabo)

Jibbs

Girl smile, take a picture if you can
Girl smile, take a picture if you can
Girl smile, take a picture if you can
Girl smile, take a picture if you can Oh snap she done posed for me
That flash run off and she did it on the toe for me, put on a whole show for me
Like boom boom snap, boom boom snap, to my boom boom clap, boom boom ooohh
Lable told her to shake that laffy taffy and she did exactly what they do in Georgia so I brought
her across the border
Cuz she said she never saw that arch before, so I showed her how to pose with that 6.0 Yeah
that's that new dance that new dance that'll make your whole crew dance
Funny thing about it she don't even have to move and
Jump left jump right show that moment
When you boom boom snap in that Kodak moment
Girl smile, take a picture if you can
Girl smile, take a picture if you can
Girl smile, take a picture if you can
Girl smile, take a picture if you can Girl smile, take a picture if you can
Girl smile, take a picture if you can
Girl smile, take a picture if you can
Girl smile, take a picture if you can She kinda smile like a bowling ball
go crazy when she see that flash lights camera action I hear Mystical when she shake it fast
ive seen things I aint never seen with her
im richy rich professor king bing gave me her
I have violent thoughts in my mind, im loosing control
She's from heaven im from bankhead ooh God's blessed me
First time I seen her she was dancing off of Nelly song
Smiled at me right then I was in the zone
Go up in my station I'll show you big dipper, stop 2 dollar stop Fabo show her bid dipper oooh
Girl smile take a picture if you can, make tootsie roll, do it with no hands Girl smile, take a
picture if you can
Girl smile, take a picture if you can
Girl smile, take a picture if you can
Girl smile, take a picture if you can Girl smile, take a picture if you can
