

# Resolution (Demo)

[Matt Corby](#)

I'm giving up, this whole lie is on me  
Call it out like a family  
Instead I bide my time, get a ride  
Until the rubber leaves the road  
You said don't lie so I made the truth  
Seem like a lie to even you  
Control your fear, its clear  
That you do not know where you're going to  
So don't you woo-oo-oo-oo-orry  
You will be my resolution  
Characters of no illusion  
You will be my resolution  
One month down and it's in sight  
Oh I'm guaranteed to lose my mind  
It's dangerous to speak and sigh  
You might know what I'm trying to hide  
So from the cradle to quarter age  
Oh I bought the book but didn't flip the page  
Ohhhh, readiness is near, we steer-ah ah!  
As far away from the coming of days  
So don't you woo-oo-oo-oo-orry  
You will be my resolution  
Characters of no illusion  
You will be my resolution  
Characters of no illusion  
You will be my resolution  
Woo woo woood  
Turn around put it down and see  
That this is really the place to be  
I'm not you, nor you me  
But we're both moving steady
