

# Julia

## Fefe Dobson

Tell me this is not the end, Julia  
You my love, my oldest friend, Julia  
I see you with flowers in your hair, Julia  
Running around without a care  
Your days were numbered, yeah And I want you to know  
You're doing this to yourself  
Time to show me the will to change  
And I swear I will help you, I will  
I will shine my light on you Let the sun light show your face, Julia  
No one knows you in this place, Julia  
I see there's a distance in your eyes, Julia  
Can I even reach you if i try  
Or is this goodbye  
And I want you to know  
You're doing this to yourself  
Time to show me the will to change  
And I swear I will help you, I will  
I will shine my light on you I will shine my light of hope  
And change and everything  
That might have been  
If you'd only hear my warning  
If you 'd only hear me calling  
I would shine my light on you Tell me this is not the end, Julia  
You my love, my oldest friend, Julia  
You put your faith and dreams that cared, Julia  
Lying with you, your breath so still  
She couldn't be trusted, yeah  
And I want you to know  
You're doing this to yourself  
Time to show me the will to change  
And I swear I will help you, I will  
I will shine my light on you
