

Strike

Sepultura

Bored my symptoms are dead
Rarest seconds I have to rest
Time will keep my instinct to seek
And my urge will bring me revenge Strike, strike! It's never been easy to beg
Rethinking the plan reinventing a man
I had to learn it all the hard way
The vengeance strikes deep within Strike, strike! I'm not the leader of my acts
No longer hearing my mind
I'm living a life underground
I'm so fucked!
Strike, strike!
