

Heart (feat. Shallou)

OTR

We get out alive, in your heart
We get out alive, can we fight Follow in the street where we fell apart
Searching for the spaces you're hiding out
You were feeling better when I was gone
No need to hurt yourself just to love someone Oh can I hold
You when the night is dark
Oh can we fight
We only loved a lie Oh in your heart
Oh it's a lie
Oh in you're heart
Oh it's a lie
We get out alive
In your heart
We get out alive
Can we fight
We only loved a lie We get out alive
In your heart
We get out alive
Can we fight
We only loved a lie There's too much inside your head
I'm waiting for a sign
For me to go Oh in your heart
Oh it's a lie
Oh in you're heart
Oh it's a lie
We get out alive
In your heart
We get out alive
Can we fight
We only loved a lie We get out alive
In your heart
We get out alive
Can we fight
We only loved a lie We get out alive, in your heart
We get out alive, can we fight
