

# World Filled With Love

Craig David

Saw some pictures in the paper,  
of a girl I'd met the day before.  
I couldn't believe that hours later,  
I had reporters knockin at my door,  
But I used to dream about,  
the life I'm living now and,  
I didn't think I'd miss those things from the past,  
and I'm not afraid of leaving,  
or letting go of what I had,  
cause I realize that now there's no turning back  
Cause I'm a young heart living in a world filled  
with love,  
so when teardrops fall from me like rain from above,  
I can brush my troubles away,  
know that deep down inside,  
I got sunshine in my life  
I used to think I could do better,  
my girlfriends always used to get me wrong  
Sent distant messages, love letters  
but those kind of feelings never lasted long  
Cause now the only love I find's within a castle made of sand  
and when the tide goes out it's swept away  
Though I got my peace of mind, and time is firmly on my side,  
and through the bad times I can safely say...That I'm a young heart living in a world filled with  
love,  
so when teardrops fall from me like rain from above,  
I can brush my troubles away,  
know that deep down inside,  
I got sunshine in my life.  
Ah... now that love's here to stay  
I've found a better day to brush my troubles away  
Cause I'm a young heart living in a world filled with love,  
so when teardrops fall from me like rain from above,  
I can brush my troubles away,  
know that deep down inside,  
I got sunshine in my life.  
I'm a young heart living in a world filled with love,  
so when teardrops fall from me like rain from above,  
I can brush my troubles away,  
know that deep down inside,  
I got sunshine in my life.
