

Too Hot to Last (feat. Lucy Woodward)

Snarky Puppy

Take it off and take me in
I am not your friend
It isn't hard to see the way this ends
Still I'm dying to begin Blame it on our past
Blame it on our circumstance
Say it sweet and say it fast
We're far too hot to last I feel you feel me again
Sweating through your skin
I don't feel to lose
I don't hope to win
I just want you to give in
Blame it on our past
Blame it on our circumstance
Kiss me deep and but kiss me fast
We're far too hot to last
