

# The Road to Jericho Is Lined With Starving People

## This Providence

There's a man on the side of the road,  
Left for dead people passing by, turn their head  
There's a man on the side of the road to Jericho - needs a friend.  
Oh we all could use a little more loving, couldn't we?  
So come on love and give your love away with me  
Hold nothing back like you've nothing to lose  
Love is all you have but you don't have a clue what it's costing you  
There's a man on his way to  
a church,  
Avoids the eyes of a dying soul, turns his head  
There's a child on the side of the road to Jericho - needs a friend  
Oh we all could do a little more loving, wouldn't you agree?  
So come on love and give your love away with me  
Hold nothing back like you've nothing to lose  
Love is all you have but you don't have a clue what it's costing you  
If loving were easy it  
wouldn't be love  
If loving were easy it wouldn't be love  
If loving were easy it wouldn't be love  
Oh will you give your love away?  
If loving were easy it wouldn't be love  
If loving were easy it wouldn't be love  
If loving were easy it wouldn't be love  
Oh love with all you have (I'm gonna give away love)  
Hold nothing back  
Oh love with all you have (I'm gonna give away love)  
Will give your love away? (I'm gonna give away love)  
Will you give your love away?
