

It's Working

William Murphy

This is my season for grace for favor
This is my season to reap what I have sown This is my season for grace for favor... yeah
This is my season to reap what I have sown See... I haven't been perfect, but I sure been faithful
See... God's got a purpose yes and I know He's able I've got a seed in the ground, that He's
blessing no more stressing
I've got a seed in the ground, now I know Him I can show Him This is my season for grace for
favor
This is my season to reap what I have sown
This is my season for grace for favor... yeah
This is my season to reap what I have sown Listen... everything is working together for my good.
Everything is working (DON'T FEEL GOOD) together for my good.
Everything is working together for my good. It's good ... Its working for my good.
It's good (Repeat) Its working for my good.
It's real good, it's working together for my good. This is my season for grace for favor... yeah
This is my season to reap what I have sown God is leaning... in my direction,
He's leaning... in my direction.
This is my season for grace for favor... yeah
This is my season to reap what I have sown
I've got a seed in the ground, I've got a seedddd in the grounddddd...
(And I don't care what your circumstance says, it's already getting better).
