

# Like Nobody

VAVO & TalkSick

I'm out of control and I'm hard to handle  
I'm selfish, impatient, I can't pretend to  
But babe you can, you can handle  
Me at my worst, sure as hell, you deserve more  
A friend is someone who knows all about you  
It's really hard to find someone trustful  
But babe you can, you can handle  
Me at my worst, sure as hell, you deserve more  
Normally I kiss but don't love,  
Listen but don't trust,  
I'm left before you leave  
Normally I hurt but don't cry,  
Listen but don't care,  
Boy you make me see  
I sing to you like no one ever listens  
LALALA like nobody is listening  
I dance with you like no one ever watches  
I can't fall asleep cause reality is better than my dreams  
People take pictures to save a moment  
But we don't need photos we do it all over  
But babe you can, you can handle  
Me at my worst, sure as hell, you deserve more  
Normally I kiss but don't love,  
Listen but don't trust,  
I'm left before you leave  
Normally I hurt but don't cry,  
Listen but don't care,  
Boy you make me see  
I sing to you like no one ever listens  
LALALA like nobody is listening  
I dance with you like no one ever watches  
I can't fall asleep cause reality is better than my dreams  
Normally I kiss but don't love,  
Listen but don't trust,  
I'm left before you leave  
Normally I hurt but don't cry,  
Listen but don't care,  
Boy you make me see  
I sing to you like no one ever listens  
LALALA like nobody is listening  
I dance with you like no one ever watches  
I can't fall asleep cause reality is better than my dreams
