

Sides

Perfume Genius

Look, sometimes you forget
To just let me in a bit
Baby, just
Where do you go sometimes
Idle and empty-eyed?
Why still no love?
Fight!
This loop is wearing thin
And I, will be here when it ends
Baby, trust Lately, baby, I've been hiding away
Don't wanna start our game that we play
Baby, if it ain't easy to love me
Baby, cut the chord and set me free
How many times I leave, when I used to stay
I'm a fool for the games we play
Wish I had the strength to leave
Running free
A millions tired things that you used to say
Don't want watch the world we made break
And it's never too late to stay Hold me right, don't cut me down
Baby, it ain't easy to love
