

# Polyamorous

## Breaking Benjamin

Let's go!The day has come to an end  
The sun is over my head  
My polyamorous friend  
You got me in a mess of trouble againSoJust when you think that you're alright  
I'm crawling out from the inside  
I never heard anyone  
I never listen at all  
They've come to get me again  
The cloud is over my head  
My polyamorus friend  
He got me in a mess of trouble againSoJust when you think that you're alright  
I'm crawling out from the inside  
I never heard anyone  
I never listen at allJust stay away from the white light  
I say your worst side's your best side  
I never heard anyone  
I never listen at allWell, how do you know?  
Well, how do you know?  
Well, how do you know?  
Just when you think that you're alright  
I'm crawling out from the inside  
I never heard anyone  
I never listen at all  
Just stay away from the white light  
I say your worst side's your best side.  
I never heard anyone  
I never listen at all  
Let's go!
