

Picture (Tobtok Remix)

[Karen Harding](#)

Got me feeling so good
Come on, take a picture
Take, take a picture
Got me feeling like I knew I would
Go on, take the picture
Take, take the picture Keep making memories while they stop and stare
Even when we're fifty, yeah, we still won't care
Ain't nobody who can tell us what we can and cannot do
In these fountains of fine youth with you You got me feeling so good
Got me feeling so good
And I know it's kinda crazy
But you give me all that I need
And I don't care who sees
Ain't nobody gonna change that
It's gonna get messy when we go all night
Better get ready when we got that good light
Ain't nobody here to tell us what we can and cannot do
In these fountains I find youth with you Got me feeling so good
Come on, take a picture
Take, take a picture
Got me feeling like I knew I would
Go on, take the picture
Take, take the picture You got me feeling so good
Got me feeling so good
And I know it's kinda crazy
But you give me all that I need
And I don't care who sees
Ain't nobody gonna change that
Keep making memories while they stop and stare
Even when we're fifty, yeah, we still won't care
Ain't nobody who can tell us what we can and cannot do
In these fountains I find youth with you Got me feeling so good
Come on, take a picture
Take, take a picture
Got me feeling like I knew I would
Go on, take the picture
Take, take the picture You got me feeling so good
Got me feeling so good
And I know it's kinda crazy
But you give me all that I need
And I don't care who sees
Ain't nobody gonna change that You got me feeling so good

Got me feeling so good
And I know it's kinda crazy
But you give me all that I need
And I don't care who sees
Ain't nobody gonna change that
