

How Does That Make You Feel

Ariana and the Rose

I'll be here for a while
we can take our time
I'll be here for the way you smoke me, way you slow it down
I'm gonna draw the blinds
you can lock the door
I'll be here for the way you run me
boy you're stunning how does that make you feel?
How does that make you feel? I'll let you come undone
while my hands are tired
I'm in it for the way you blow, way you blow my mind?
I'll shiver in the dark
you can watch me if you want
I can feel you breathing heavy
boy I'm ready
How does that make you feel??
How does that make you feel??
How does that make you feel?
How does that make you feel? I don't want to wait
I'll run my nails down your back
ice on your lips, go nice and slow
you trace my shoulder
?pull me closer as we're lying the floor I'll run my nails down your back
ice on your lips, go nice and slow
lean forward, pull me closer
How does that make you feel?
How does that make you feel?
How does that make you feel?
How does that make you feel?
How does that make you feel?
How does that make you feel?
How does that make you feel?
How does that make you feel?
How does that make you feel?
