

# Our Special Love (feat. Brian Wilson)

[Peter Hollens](#)

Bet you wish you really didn't matter  
all along you really had her  
she's your everything  
keeps you wondering  
doesn't matter where we are  
doesn't matter where we've been  
I cant believe its gone this far  
I cant believe whats happening  
Tell me what i did inside  
girl you gotta know  
that there's a part of you and me  
that i just cant let go  
(Fly away)  
Nothing, but nothing but nothing  
Could ever stand in our way  
A special love can be found anywhere in the world  
Except for here, that's where you are  
But a pick-it-up can be found anywhere in the world  
except for here, that's where you are
