

The Greatest

Rod Wave

Had to run that b***h back
I swear once they see where a n***a come from
All of this s**t that you had to go through bruh
They don't understand
(I bet my last track probably gave you lockjaw hey Lilkdubb)[Verse]
Young n***a from the bottom of the map
Came up riding with the strap iron on his lap
One false move get whacked
Got the whole hood on his back
And it's just like that
For my niggas locked in the trap
Pray to God we all make it back pray we all make it back
Gotta pray we all make it back
And I know it's wrong that I rap
But a street n***a first
Tell the crackers free Mac Deezy
Ma look at your son I'm on TV
They didn't believe me
N***a went and got it off the greezy
It's hard but I make it look easy a crazy achievement
Won't really f**k with no rappers
All these niggas hustling backwards
Misguiding the youth
But long as I know the truth
That's another subject for after
And I'm riding in the Rover
12 keep on trying to pull me over
Asking a n***a if I stole it I bought it I own it
I remember walking to school
Catching the bus early morning like Ma I ain't going
I was in the hallways roaming
But I still got my diploma I got my diploma
Went to school all twelve years just to get a job selling donuts man that's crazy
I ain't with the minimum waging
I ain't with the modern day slavery
The f**k is you saying?
Told the crackers "F**k you pay me"
Had to tell 'em "F**k you pay me"
It's back to the block
Well I guess it's back to the block
In the streets running 'round playing hooky
And I ain't never sold no crack but I'm so street I can cook it

[Bridge]

And I know it's hard to find a way
But you're bound to see brighter days
A million dollars can't change me n***a
'Cause hard times made me n***a
A hard grind saved me n***a
I got it off the pavement n***a
I got it off the pavement my n***a [Chorus]
Young n***a from the bottom of the map
Came up riding with the strap
Young n***a got the hood on his back
He got the whole hood on his back yeah
Didn't think you'd be who you are my n***a
Didn't think you'd take it this far my n***a (Okay)
You like the greaaatest you like the greatest to me
You like the greatest you like the greatest to me
Give a f**k what they saying you like the greatest to me yeah

[Outro]

You like the greatest you like the greatest to me
You like the greatest you like the greatest to me
Yeah yeah yeah
F**k what they saying you like the greatest to me yeah
'Cause a n***a built off this s**t bruh this s**t in me bruh for real
Ayy free C5 man grrah
We ain't forget about you my n***a
Grindin' babyyy
