

Cold

Static-X

We kiss
The stars
We writhe
We are Your name
Desire
Your flesh
We are Cold, We're so cold
We are, so
Cold We're so cold
Cold, We are so cold
We are, so
Cold We are so cold Your mouth
These words
Silence
It turns
Humming
We laugh
My head
Falls back
Cold, We are so cold
We are, so
Cold We are so cold
Cold, We are so cold
We are, so
Cold We are so cold (Repeat)
