

Angel (String Mix)

Mean Mr Mustard

Mean Mr Mustard
She was alone in the room,
And somehow I knew that in time
I would fall
For that look on her face
What I'd do to embrace you tonight
And watch the dark turn into light.
I can't believe
I was really lying next to you. Oh oh, angel -
She looks like an angel -
Take me to heaven with you, when you go.
Oh, angel -
Got to be an angel -
You can't leave me, baby; on my own.
Fly, angel, fly,
With golden soul alive.
She said "I'll only leave you in heaven" -
I thought angels did not lie. If time could stand still,
I'll hold you near me now
And for always;
And I know what I feel
To help you to leave my life,
But you left without saying goodbye.
If you change your mind
Remember I've been waiting here. Oh oh, angel -
She looks like an angel -
Take me to heaven with you, when you go.
Oh, angel -
Got to be an angel -
You can't leave me, baby; on my own.
Fly, angel, fly,
With golden soul alive.
She said "I'll only leave you in heaven" -
I thought angels did not lie. Don't stay away too long -
I can hardly stand it;
I can hardly stand it. Fly, angel, fly,
With golden soul alive.
She said "I'll only leave you in heaven" -
I thought angels did not lie.
Oh, Angels did not lie, oh no
Angels did not lie;
