

Love Language (SNBRN Remix)

Crooked Colours

You're the same kind of broken as me
All the damage unseen, fractured underneath
You're the same kind of crazy as I
Got a temper like fire, heart on your sleeve
These vacant conversations make you
Occupy my thoughts
And these awkward situations got me
Feeling out of touch
So speak your love language to me
I understand just what you need
No one can hear it like me
Hear, hear
So speak your love language to me
I understand just what you need (What you needed)
No one can hear it like me
Like me (Yeah, yeah, yeah)
So speak your love language to me
I understand just what you need (What you needed)
No one can hear it like me
I hear (Yeah, yeah, yeah)
I'm tripping all over these words
My vision is blurred, can't see a thing
You know how to calm me right down
If I make enough sound, you rescue me (Yeah, yeah, yeah)
These vacant conversations make
you
Occupy my thoughts
And these awkward situations got me
Feeling out of touch
So speak your love language to me
I understand just what you need
No one can hear it like me
Hear, hear
So speak your love language to me
I understand just what you need (What you needed)
No one can hear it like me
Like me (Yeah, yeah, yeah)
So speak your love language to me
I understand just what you need (What you needed)
No one can hear it like me
Hear, I hear (Yeah, yeah, yeah)
(Ooh)
(What you needed)
(Ooh)
Ooh
